Dear Minnesotan,

October 1, 2008

\$188 million in gas tax revenue was diverted from Minnesota's roads and bridges to promote motorized recreation since 1994. Recent increase in the state's gas tax increased gas tax diversions to motorized recreation to approximately \$42 million per biennium.

Despite MRR's efforts during the 2008 legislature, gas tax funding increased for snowmobiles, ATVs, dirt-bike motorcycles, four-wheel drive trucks and motorboats. Gas tax promotion of motorized recreation has many unwanted effects including damage to forests, streams and wetlands, global warming, noise and trespass. With motorized recreation's gas tax fueled budget its no wonder quiet places and healthy trails and waterways are getting harder to find and protect.

MRR is determined to end gas tax diversions to motorized recreation.

Support MRR's work with a tax-deductible gift.
